Principal's foreword

Introduction

Welcome to Mackay North State School.

Our school has a great reputation as a friendly school that has maintained its traditional old school charm. We are proud of our happy, well-behaved students; our strong, supportive parent community; our dedicated, highly skilled staff and our old school atmosphere.

While we have maintained our traditional charms we have been steadily improving our school facilities and can provide our students with modern learning aids. We aim for the highest possible standards in Literacy and Numeracy. We aim to be a school that gets these basics right. We have strong links with the community. We have a very strong sense of social justice, which is evidenced by the whole school relationship with our Special Education Unit Services.

If you have the opportunity this year to support the P&C, please do so either by attending meetings or by supporting their fundraising ventures. We are always ready to listen to your concerns and suggestions, so if you need to discuss an issue, please don't hesitate to contact us. The purpose of this report is to give the reader an overall view of the 2013 school year at Mackay North State School. This report has snapshots around all facets of school life, including; student, parent and teacher satisfaction with the school, student academic and extra-curricular achievement and involvement, and future directions for the school. By reading this report you will gain a very complete picture of Mackay North State School.

Copies of this report can be accessed in a number of different ways. These include; direct link to this report from our school website (www.macknortss.eq.edu.au), hard copy format available at the school office or by request have the report emailed directly to you.

School progress towards its goals in 2013

Curriculum

Over the course of 2013 our school goal was the improvement of all students' Reading Comprehension ability. This goal was progressed to a large extent through a rigorous and consistent teaching and learning approach to reading comprehension. 100% of students either improved or maintained their reading

Queensland State School Reporting

2012 School Annual Report

comprehension ability as per internal monitoring assessments. During the course of 2013 our school staff continued to build upon the successes of the previous year.

During 2013 we developed our school Sight Word program to help improve student's access to text in their reading. Our approach will be the initial assessment of all students (P to 7) in order to gain baseline data. Moving forward from there students will routinely assessed during the year to gauge their progress. We are looking forward to seeing substantial gains in the student's sight word knowledge in 2014.

Community and Facilities

A highlight of 2013 was the biannual school fair held in May. This event was a great success and community feedback was very positive.

The 2013 school year began with an extended wet season, which hindered our progress towards recovery from the devastating fire, which occurred in B Block in December 2010. Due to the extended wet season recovery was slow, however completion of the new Resource Centre and refurbishment of the old Resource Centre into the Special Education were completed. Both of this facilities are now being fully utilised.

Future outlook

In 2014 the school conducted a quadrennial school review and from that was developed the 2015 - 2018 Strategic plan. The process identified the key directions as:

- To strengthen the teaching and learning from Prep-6 by focussing on enhanced pedagogy in English (specifically Reading and Writing) and Numeracy. Particular focus on the explicit teaching, continued moderation of summative assessment and the sharing of best practice.
- Provision of Professional Development and intensive teaching focussed on key priorities and identified areas developed from data collection of students and staff and through the Pedagogical Framework using the Great Results Guarantee funding.
- Strengthen leadership density across the teaching staff
- Maintain and enhance our school/community engagement programs to further enhance the learning opportunities for the student who attend MNSS.

Our school at a glance

School Profile

Coeducational or single sex: Coeducational

Year levels offered in 2013: Prep Year - Year 7

Total student enrolments for this school:

	Total	Girls	Boys	Enrolment Continuity (Feb – Nov)
2011	371	186	185	91%
2012	343	171	172	88%
2013	385	195	190	90%

Student counts are based on the Census (August) enrolment collection.

Characteristics of the student body:

The whole school percentage of males is 49% and 51% females. These percentages remain reasonably constant. Student continuity was not as high as we would wish, however, destination records show us that the majority of students who departed our school was due to families moving away from Mackay city to other towns and cities. This movement away from Mackay is mostly related to employment and cost of living. Our school has 16% of Aboriginal and Torres Strait Island students. We also have approximately 10% of our students who are attached to our Special Education Unit. All of the Special Education students are part of mainstream classroom groups.

Average Class sizes

Phase	Average Class Size		
	2011	2012	2013
Prep – Year 3	23	20	23
Year 4 – Year 7 Primary	25	24	26

School Disciplinary Absences

Disciplinary Absences	Count of Incidents		
	2011	2012	2013
Short Suspensions - 1 to 5 days	12	16	12
Long Suspensions - 6 to 20 days	2	2	1
Exclusions	0	0	0
Cancellations of Enrolment	0	0	0

Curriculum offerings

Our distinctive curriculum offerings

- All 8 KLAs are offered in Years 1 to 7 (LOTE yrs. 4 – 7 only)
- Ready Set Go program – offered to “pre-prep” aged students to introduce children and parents to the requirements of PREP.
- PREP year level will begin working on distinctive Maths and English Curriculum from the beginning of Term 1
- LOTE – Japanese language is taught to all years 4 and 7 students.
- Special Education Unit – catering for students with Intellectually Impairments, Autism, Speech Language Impairment and Visual Impairments.
- Instrumental music program – brass, string and percussion with performances.
- A junior and senior choir also rehearses and performs. Instrumental and Choral Concerts to celebrate our students achievements and talents occur twice per year.
- What you want to be program – a distinctive approach to learning and behaviour. A school specific values program. The strategies are used for all students.

Extra curricula activities

- Creative Extension programs such as; Optiminds, Wakakirri, Strings program, Brass/Woodwind program, Recorder Marching Band and choral singing are offered to students from all year levels.
- Each term the school offers extra-curricula activities linked to the curriculum and house spirit; events such as Interhouse Mathematics, Interhouse General Knowledge, Interhouse Spelling Bee, Interhouse Public Speaking and North Idol (talent quest).
- Students have all sporting opportunities available to them up to State Representation. We also offer a school Netball for students in Yrs 2,3,4 and 5.
- Each year our student council looks to participate in one major fundraising event that supports the wider community. During 2013 our student council ran a project to support the RFDS.
- Club Basketball and Hockey are available to students in after school programs.

How Information and Communication Technologies are used to assist learning

Strong ICT focuses with the provision of a minimum of 4 PCs in every classroom, a mini lab of 10 PCs in the library and a computer lab of 29 machines. During 2013 all year levels access online and networked ICT software to enhance and engage their learning. These included programs like Reading Eggs and Mathletics. Also specific year levels accessed more specialized software such as Moviemaker and Audacity.

All teachers have a personal laptop that is used for curriculum development and communication and all classrooms have an Interactive Whiteboard for teaching. All Staff have attended a number of ICT professional development sessions and continue to improve their skills. This has included staff becoming familiar with ICT software related to IWBs and online resources.

During 2013 selected Year 5 students participated in a program call “Project 600”. This program was an online virtual classroom based on Numeracy. This program ran successfully during Term 1. One of our staff members became an online tutor for this program and coordinated this program for the students.

Social climate

During 2013, our school maintained its focus on excellent behaviour expectations of all members of the school community. This continued strong focus has meant the student behaviour has improved in all sectors of our school, according to our school opinion survey data. The backbone of the program is clearly stated expectations and an unwavering commitment to appropriate behaviour being demonstrated by all. Our school communication books and School-Community Behaviour Accord together is the cornerstone of this success. During 2013, we continued our "What You Want to Be" program, a school developed values program. This program was well received by the whole school and it will continue in 2014.

Student ratings for "fair treatment" and general happiness with this school rated above state and like school means. This was very rewarding for the staff.

As a whole school community we take bullying, in any of its forms, as a serious behaviour. Our School-Community Behaviour Accord highlights bullying as the number 1 on the list of behaviours our school will not tolerate. To assist students in understanding of bullying all students are involved in the ABC of Emotions program which equips students with a greater understanding of managing their emotions and how personal actions affect those around you. Students who participate in bullying behaviour (directly or indirectly) have to make restitution to their victim. Parents of both parties are always notified of this behaviour.

During 2013 the school was without the regular services of a chaplaincy program. This has been rectified and a new chaplain will begin service in 2014.

Parent, student and staff satisfaction with the school

During 2013 overall parent satisfaction with the school was very high. This can be credited to the consistent effort of the school staff to communicate regularly with the parents about the child's growth (both academically and socially) at the school. In 2013 we introduced an online app that communicates directly with parents on a daily basis. This new feature assisted the school community to become better informed.

Students' overall satisfaction rating for 2013 was also very high. A very pleasing message from the 2013 data is that students are beginning to realise that the school has continued to raise the expectations of the efforts that students commit to all aspects of school life. Over 96% of students surveyed responded that their teachers expected them to do their best.

Another pleasing result from 2013 staff satisfaction survey is that the staff morale has remained a very high result.

Performance measure (Nationally agreed items shown*)

Percentage of parents/caregivers who agree that:	2012	2013
their child is getting a good education at school (S2016)	100%	96%
this is a good school (S2035)	100%	96%

their school gives them opportunities to do interesting things (S2079)	97%

* Nationally agreed student and parent/caregiver items were incorporated in the School Opinion Survey in 2012.

Percentage of respondents who Somewhat Agree, Agree or Strongly Agree with the statement. Due to a major redevelopment of the surveys (parent/caregiver and student in 2012; staff in 2013), comparisons with results from previous years are not recommended.

DW = Data withheld to ensure confidentiality.

Involving parents in their child's education

Our school enjoys strong support from our parent body and local community. Our students are well supported through extensive volunteer contributions in all aspects of school programs and especially in the Literacy and Numeracy programs. It is a feature of the school that community events are held regularly and are valued through high attendance. These include (amongst other events: Welcome Back Dance, annual Walkathon and Cooking Competition, bi-annual school concert and bi-annual school Heritage Fair).

At all of our school events there are a number of community representatives who are regular participants. These include our Adopt-A-Cop. As a school we offered a number of school events that involved various year levels. Events like our Christmas Carols evening, Multicultural day, Cooking Competition and School Concert are whole of school events. There were also events that were tailored to specific age groups. Events like; Under 8s Celebrations, Junior and Senior sports days.

Communication with parents and community are through the school website, fortnightly newsletters, the weekly assembly and twice yearly parent teacher interview, which complement the issuing of formal report cards for each student at the end of each semester. Annual events, such as Year Seven Graduation and the Awards Ceremony also provide opportunity for communication and celebration.

Reducing the school's environmental footprint

Data is sourced from school's annual utilities return and is reliant on the accuracy of these returns.

The installation of solar panel on our prep buildings has allowed our school to put some electrical energy back into the grid. We have also been running an awareness campaign with staff informing them of the real cost of electrical consumption with in our school, and encouraging staff to assist in energy saving measures. This has resulted in a reduction of electricity usage in 2013.

Our school water consumption was lower in 2013 as a direct result of the extended wet season that occurred at the beginning of the school year. This meant that we did not have a need to use local water supplies to irrigate school ovals.

	Environmental footprint indicators	
	Electricity kWh	Water kL
2010-2011	170,114	1,895
2011-2012	179,363	1,308
2012-2013	156,485	816

The consumption data is sourced from the validated utilities expenditure return which the school submits at the end of each financial year. The data provides an indication of the consumption trend in each of the utility categories which impact on the schools environmental footprint.

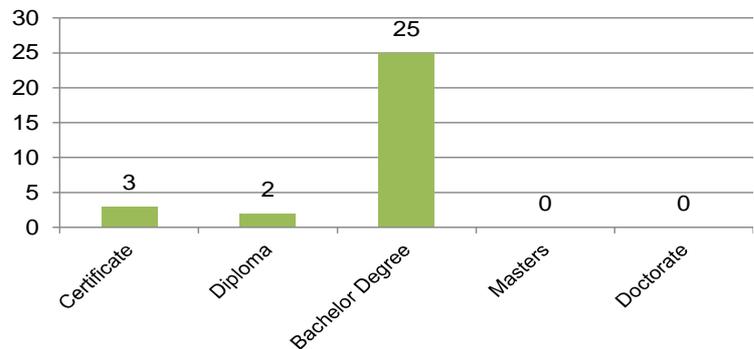

Our staff profile

Staff composition, including Indigenous staff

2013 Workforce Composition	Teaching Staff *	Non-teaching Staff	Indigenous Staff
Headcounts	30	17	<5
Full-time equivalents	26	12	<5

Qualifications of all teachers

Diploma	2
Bachelor Degree	25
Masters	0
Doctorate	0
Total	30

* Teaching Staff includes School Leaders

** Graduate Diploma etc. includes Graduate Diploma, Bachelor Honours Degree, and Graduate Certificate

Expenditure on and teacher participation in professional development

The total funds expended on teacher professional development in 2013 were \$14500.

The major professional development initiatives are as follows:

- Ongoing refinement of staff teaching skills centred on Reading Comprehension. This was based on the reading comprehension strategy called “Into the Book”.
- Ongoing refinement of staff teaching skills centred on Explicit Instruction as the key pedagogical strategy to be used when teaching critical content.
- Explicit instruction of key staff in the Collegial Coaching framework.
- Extended instruction of key staff in the Explicit Instruction framework of high yield lessons
- Professional learning in based on understanding and utilising student data tracking software.
- Leadership – instructional leadership

Collegial coaching was introduced during 2012 and teachers familiarised themselves with the process of working with teaching partners in a coaching capacity.

The proportion of the teaching staff involved in professional development activities during 2013 was 100%

Our staff profile

The proportion of the teaching staff involved in professional development activities during 2013 was 100 %.

Average staff attendance	2011	2012	2013
Staff attendance for permanent and temporary staff and school leaders.	97%	96%	96%

Proportion of staff retained from the previous school year

From the end of the previous school year, 89% of staff was retained by the school for the entire 2013 school year.

Student Attendance Distribution

The proportions of students by attendance range.

* The method for calculating attendance changed in 2013 – care should be taken when comparing data from 2013 to that of previous years.

Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism.

Mackay North State School takes regular attendance at school as a serious matter. We understand there will be circumstances that will occur during the school year that will make attendance impossible. However, the expectation of the school is that all students should have maximum attendance at school in line with the compulsory education requirements of persons under the age of 16. In order to track student's attendance, class rolls are marked twice daily. In 2013, the school continued to use a system whereby the parents of students not present at morning roll marking will be contacted via SMS in order to ascertain their

Performance of our students

whereabouts and absence reason. This has seen a reduction in the unexplained attendance. We also maintained procedures around late attendance so that better data could be gathered to manage this situation. Teachers take special note of extended absences by students and ensure the office staff is made aware of this non-attendance. Once the office is notified of these absences, there are processes in place to contact parents directly to ascertain the reason behind the absences. If a student's absence level is unacceptable, all Education Queensland guidelines are followed. In 2013 we introduced an attendance manager to monitor 'students of interest' in order to improve their rate of attendance. This process allows us to closely monitor these students. In 2014 we are looking to introduce an attendance award structure to class groups to further encourage attendance.

National Assessment Program – Literacy and Numeracy (NAPLAN) results – our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9.

Our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9 are available via the My School website at <http://www.myschool.edu.au/>.

To access our NAPLAN results, click on the *My School* link above. You will then be taken to the *My School* website with the following 'Find a school' text box.

If you are unable to access the internet, please contact the school for a paper copy of our school's NAPLAN results.

Achievement – Closing the Gap

In 2013 Mackay North State School had an indigenous population of 17.4%. This population is spread across all year levels. Our indigenous students' attendance rate has been improving for the past 4 years, our indigenous attendance rate for 2013 was 89.2%, which is slightly lower than 2012 school year.

In the NAPLAN assessment program the achievement average gap in some of the strands between indigenous and non-indigenous students has been closing over the last three years. However, in 2013 our results continued to meet this expectation.

During 2013 our school focus continued to be reading. In our years 5 and 7 classes we reduced the reading mean gap between Indigenous and Non-Indigenous students. This was very pleasing to see. In Year 3 the reading mean gap for the NAPLAN test program was -17 points between indigenous and non-

Performance of our students

indigenous students. This result means that our indigenous students outperformed our non-indigenous students. This was a very pleasing result.

For the past 3 years we have been focusing on increased attendance by indigenous students. This has been successful, with the attendance gap closing. We have also introduced engagement-focused programs for our upper school indigenous students (e.g. Whole of School Community Gardening Project). Anecdotally these seem to be assisting with indigenous student's engagement with school.

As a school we use our indigenous aides to liaise with indigenous families concerning attendance and progress. This process is well received by the community. In 2013 we introduced a Homework Program for Indigenous students and their parents. This program has the expectation that parents and their children attend the sessions in order improve parent engagement with the learning process. This program has been very successful and will continue into 2014.
