

Mackay North State School

Student Code of Conduct 2020-2023

Every student succeeding

Every student succeeding is the shared vision of Queensland state schools. Our vision shapes regional and school planning to ensure every student receives the support needed to belong to the school community, engage purposefully in learning and experience academic success.

Purpose

Mackay North State School is committed to:

- providing a safe, respectful and disciplined learning environment for all students, staff, parents and visitors
- working in partnership with parents and the community to ensure that our students receive a high-quality education appropriate to their needs
- helping students to develop as independent and knowledgeable people who are morally and socially responsible contributors to society leading purposeful and balanced lives
- achieving a positive school tone and an effective learning and working environment.

At all times, Mackay North State School seeks to reflect the values and behaviour that are acceptable in our society. It has a clear expectation that, as far as possible, it remains connected to the community that exists outside the school fence and that our students will embrace the appropriate values as their preferred way of behaving. These beliefs influence their decisions, behaviour and social practices.

The Mackay North State School ***Student Code of Conduct*** sets out the responsibilities and processes we use in our school to promote a productive, effective whole school approach to discipline.

Its purpose is to facilitate high standards of behaviour from all in the school community, ensuring learning and teaching in our school is prioritised, where all students are able to experience success and staff enjoy a safe workplace.

To promote positive behaviour at Mackay North State School, expected behaviour will be explicitly taught, our school community will be informed of these expectations and parents/carers regarded as partners in the teaching, monitoring and reinforcing of behaviour expectations.

Principal's Foreword

Mackay North state School prides itself on the quality education that is offered through our academic focus, strongly supported by student wellbeing. While we offer students a full range of learning experiences we don't deviate from the fact that our number one priority is student academic growth and improvement. This, coupled with a whole child approach, provides our students with the environment to be and achieve their very best.

The dedicated teaching and support staff set high expectations for students and willingly assist them to meet these expectations. Mackay North State School is an inclusive school that caters and promotes success through the following behaviour expectations:

Our **Student Code of Conduct** echoes these expected behaviours along with our school motto, 'Learning, Caring, Sharing', in that we expect students to be responsible for their actions and to accept consequences for behaviour choices and mistakes. Mackay North State School staff take an educative approach to student behaviour management, believing that behaviour can be taught and that mistakes are opportunities for everyone to learn.

We have developed a community behaviour accord which outlines the shared responsibility we all have for student behaviour and it also outlines the student behaviours that will not be tolerated by our entire community.

All of our behaviour management structures are designed to support our students in making the right choice about their behaviour. We are committed to building the skills of all of our students to be confident, self-reflective, valued members contributing positively to society. We do this in a supportive, caring way ensuring that all students experience not only academic success, but also whole of person growth during their primary school years.

Mackay North State School prides itself on working closely with all our students and their families in order to achieve the best academic and behaviour outcomes. We believe strong, positive relationships between all members of our school are the foundation to supporting the success of all students.

Our **Student Code of Conduct** provides a collaborative and clear explanation of what we expect from students and how we will support every student to meet these expectations.

Learning and Behaviour Statement

Mackay North State School considers that all areas of our school are teaching and learning environments. We consider behaviour management to be an opportunity for valuable social learning as well as a means of maximising the success of academic education programs.

Our **Student Code of Conduct** outlines our system for facilitating positive behaviours, preventing inappropriate and unacceptable behaviours and responding to these behaviours. This ensures that our expectations for student behaviour are plain to everyone, assisting our school to create and maintain a positive and productive teaching and learning environment.

At all times, Mackay North State School seeks to reflect the values and behaviour that are acceptable in our society. We have a clear expectation that, as far as possible, we remain connected to the community that exists outside the school fence and that our students will embrace the appropriate values as their preferred way of behaving. These beliefs influence their decisions, behaviour and social practices.

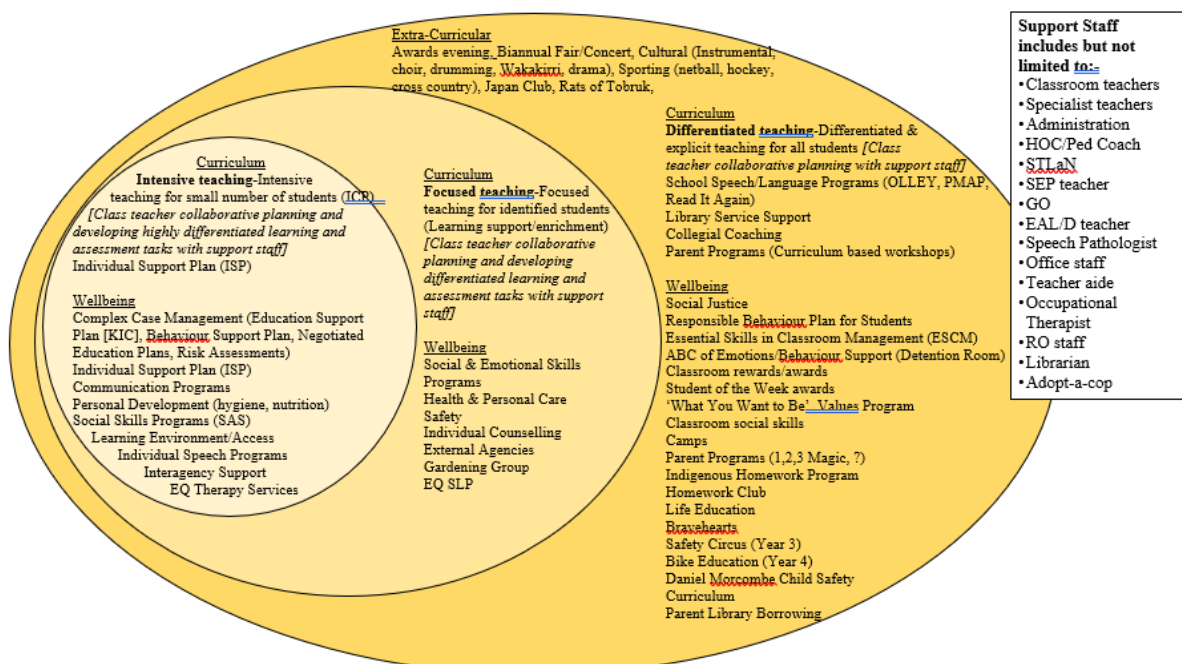

It is reasonable to expect that not everyone will share the same sets of beliefs, and this contributes to a richly diverse social environment in each school. It can also contribute to differences in expectations and force us to reflect on our own understanding of what we consider acceptable and unacceptable. We encourage any student or parent to make an appointment with the principal to discuss the model of behaviour support and discipline used at this school.

Multi-Tiered Systems of Support

Mackay North State School uses multi-tiered systems of support (MTSS) as the foundation for our integrated approach to learning and behaviour. MTSS is a preventative, differentiated model grounded in practical strategies, targeted planning and data-informed decision-making. Based on a problem-solving model, in MTSS school staff match increasingly intensive interventions to the identified needs of individual students.

Mackay North State School – Whole Child Approach

At Mackay North State School, all staff work collaboratively to provide differentiated and targeted learning experiences to cater for all aspects of student academic growth, wellbeing and overall improvement.

Mackay North State School provide these universal supports to all students. These supports serve as the foundation for behaviour and academics. For most students, the core program gives them what they need to be successful and to prevent future problems.

Responding to minor problem behaviours:

To effectively correct a social learning error staff should respond in a way that is:

- Calm - using professional and composed voice tone and volume
- Consistent - respond each time a social learning error takes place “what you walk past you accept”
- Brief - short and concise response and disengage quickly – do not engage in back and forth argument
- Immediate - respond within a short time after the social learning error takes place
- Respectful - polite response free of sarcasm, given in private
- Specific - identify the observable behaviour **from your school-wide matrix** that was violated.

An effective school-wide continuum of response strategies to minor problem behaviours should include:

- Prompt - with a visual or verbal cue signal the occurrence of the behaviour
- Redirect - restate the matrix behaviour that is expected
- Re-teach - tell, show, practice and acknowledge the expected behaviour
- Provide choice - give the student options of behaviours to do next
- Conference with the student - have a private conversation with the student to problem solve together to plan how the student can meet the expectations.

Minor problem behaviours are on par with academic mistakes – how do we assist students who have made an academic error – RETEACH.

FOCUSED SUPPORT

This level of support focuses on improving specific skill deficits students have. Mackay North State School provides focused support to groups of students with similar targeted needs. Providing support to a group of students provides more opportunities for practice and feedback while keeping the intervention maximally efficient. These supports help students develop the skills they need to benefit core programs at the school.

POSSIBLE INTERVENTIONS:

- Small group Social Skills Program
- Classroom intervention strategies
- Check in/Check out
- Chillzone
- Individual behaviour monitoring system implemented in the classroom
- Parent/carer consultation
- Targeted classroom support

INTENSIVE SUPPORT

Mackay North State School is committed to educating all students, including those with the highest behavioural support needs. We recognise that students with highly complex and challenging behaviours may need comprehensive systems of support that require regular review in consultation with parents/ caregivers and other relevant specialist staff. These supports are the

most resource intensive due to the individualized approach of developing and carrying out interventions.

POSSIBLE INTERVENTIONS:

- Referral to Social Justice Committee
- Individual Behaviour Support Plan written
- Check in/Check out
- Behaviour Monitoring Chart
- Age appropriate Social and Emotional Learning Program – RIGHTS AND RESPONSIBILITIES, SAS
- Case Management
- FBA's
- External agency involvement
- Flexible timetable

Consideration of Individual Circumstances

Staff at Mackay North State School take into account students' individual circumstances, such as their behaviour history, disability, mental health and wellbeing, religious and cultural considerations, home environment and care arrangements when teaching expectations, responding to inappropriate behaviour or applying a disciplinary consequence.

In considering the individual circumstances of each student, we recognise that the way we teach, the support we provide and the way we respond to students will differ. This reflects the principle of equality, where every student is given the support they need to be successful. This also means that not everyone will be treated the same, because treating everyone the same is not fair. For example, some students need additional support to interpret or understand an expectation.

Others may benefit from more opportunities to practise a required skill or behaviour. For a small number of students, the use of certain disciplinary consequences may be considered inappropriate or ineffective due to complex trauma or family circumstances. These are all matters that our teachers and principal consider with each individual student in both the instruction of behaviour and the response to behaviour.

Our teachers are also obliged by law to respect and protect the privacy of individual students, so while we understand the interest of other students, staff and parents to know what consequences another student might have received, we will not disclose or discuss this information with anyone but the student's family. This applies even if the behavioural incident, such as bullying, involves your child. You can be assured that school staff take all matters, such as bullying, very seriously and will address them appropriately. We expect that parents and students will respect the privacy of other students and families.

If you have concerns about the behaviour of another student at the school, or the way our staff have responded to their behaviour, please make an appointment with the principal to discuss the matter.

Student Wellbeing

Mackay North State School offers a range of programs and services to support the wellbeing of students in our school. We encourage parents and students to speak with their class teacher or make an appointment to meet with the guidance officer if they would like individual advice about accessing particular services.

Learning and wellbeing are inextricably linked — students learn best when their wellbeing is optimised, and they develop a strong sense of wellbeing when they experience success in learning. The [student learning and wellbeing framework](#) supports state schools with creating positive school cultures and embedding student wellbeing in all aspects of school life through connecting the learning environment, curriculum and pedagogy, policies, procedures and partnerships for learning and life.

Curriculum and pedagogy

Schools build the foundations for wellbeing and lifelong learning through curriculum embedding [personal and social capabilities](#) (self-awareness, self-management, social awareness and social management) in the implementation of the [P–12 curriculum, assessment and reporting framework](#).

Schools acknowledge the positive impact that a meaningful relationship between teacher and students can have on students' academic and social outcomes. As part of the whole school's curriculum at Mackay North State School, we provide age-appropriate drug and alcohol education that reinforces public health and safety messages.

Policy and expectations

Within a school community there are specific health and wellbeing issues that will need to be addressed for the whole school, specific students, or in certain circumstances.

Specialised health needs

Mackay North State School works closely with parents to ensure students with specialised health needs, including those requiring specialised health procedures, have access to a reasonable standard of support for their health needs whilst attending school or school-based activities.

This means that appropriate health plans are developed and followed for students with specialised health needs, that staff are aware of the student's medical condition and that an appropriate number of staff have been trained to support the student's health condition.

Medications

Mackay North State School requires parent consent and medical authorisation to administer any medication (including over-the-counter medications) to students. For students requiring medication to be administered during school hours, the school can provide further information and relevant forms.

For students with a long-term health condition requiring medication, parents need to provide the school with a [Request to administer medication at school](#) form signed by the prescribing health practitioner.

Mackay North State School maintains a minimum of one adrenaline auto-injector and asthma reliever/puffer, stored in the school's/campus first aid kit to provide emergency first aid medication if required.

Mental health

Mackay North State School implements early intervention measures and treatments for students where there is reasonable belief that a student has a mental health difficulty. This includes facilitating the development, implementation and periodic review of a [Student Plan](#).

Suicide prevention

Mackay North State School school staff who notice suicide warning signs in a student should seek help immediately from the school guidance officer, senior guidance officer or other appropriate staff.

When dealing with a mental health crisis, schools call 000 when there is an imminent threat to the safety of student in the first instance, and where necessary provide first aid. In all other situations, Exemplar State College staff follow suicide intervention and prevention advice by ensuring:

- the student is not left alone
- their safety and the safety of other students and staff is maintained
- students receive appropriate support immediately
- parents are advised
- all actions are documented and reported.

Suicide postvention

In the case of a suicide of a student that has not occurred on school grounds, Mackay North State School enacts a postvention response, by communicating with the family of the student and ensuring immediate support is provided to students and staff who may be affected.

Where a suicide has occurred on school grounds or at a school event, Mackay North State School staff immediately enact the School Emergency Management Plan and communicate with the family of the student and ensure immediate support is provided to students and staff who may be affected.

Student Support Network

Mackay North State School is proud to have a comprehensive Student Support Network in place to help the social, emotional and physical wellbeing of every student. In addition to the assistance provided by class teachers, we have a team of professionals whose dedicated roles are to help ensure our school is an inclusive, nurturing environment.

Students can approach any trusted school staff member at Mackay North State School to seek assistance or advice. If they are unable to assist they will provide guidance and help ensure the student is connected to the appropriate representative of the Student Support Network.

Parents who would like more information about the student support roles and responsibilities are invited to contact a member of the school Administration Team on 4940 0333.

Role	What they do
Guidance Officer	<ul style="list-style-type: none"> • provides a comprehensive student support program within the school environment offering counselling with students on a one-on-one basis or in a group setting • assists students with specific difficulties, acting as a mediator or providing information on other life skills • liaises with parents, teachers, or other external health providers as needed as part of the counselling process.
Department of Education School Based Registered Nurse	<ul style="list-style-type: none"> • works with school staff to build their competence and confidence to safely manage procedures and interventions required by students with specialised health needs • provides assessment, health management planning, training and ongoing support and supervision for students with specialised health needs.
School Leadership Team	<ul style="list-style-type: none"> • responsible for student welfare at each year level • provides continuity of contact for students and their families through the six years of schooling • ensures students feel safe and comfortable and want to come to school • nurtures a sense of belonging to the class, year level and school. • Provide resourcing for in class and playground support for students at risk of disengaging from learning as prioritised by the Student Support Network (Social Justice Team)
Special Education Program	<ul style="list-style-type: none"> • Ensuring an inclusive environment for all students • Resource classroom teachers with strategies to differentiate and support students • Oversee referrals to specialised therapy services and other supports • Links teaching staff with departmental support staff as listed below • provides individual and, at times, group support to students to assist their engagement with education, social, emotional and physical needs

It is also important for students and parents to understand there are regional and statewide support services also available to supplement the school network. These include Principal Advisor Student Protection, Mental Health Coach, Autism Coach, Inclusion Coach, HOC-SS (Advisory Visiting Teachers) and Senior Guidance Officers. External Providers such as Family and Child Connect and The Andergrove Neighbourhood Centre are also available. For more information about these services and their roles, please speak with the Principal or Guidance Officer on 49400333.

Whole School Approach to Discipline

Mackay North State School uses our SuperBee Behaviour for Success approach which is underpinned by research from Positive Behaviour for Learning (PBL) and trauma informed practices as the multi-tiered system of support for discipline in the school. This is a whole-school approach, used in all classrooms and programs offered through the school, including sporting activities and excursions.

PBL is an evidence-based framework used to:

- analyse and improve student behaviour and learning outcomes
- ensure that only evidence-based practices are used correctly by teachers to support students
- continually support staff members to maintain consistent school and classroom improvement practices.

Trauma-Informed Practice is a strengths-based framework

- grounded in an understanding of and responsiveness to the impact of trauma
- emphasises physical, psychological, and emotional safety for everyone
- creates opportunities for survivors to rebuild a sense of control and empowerment.

At Mackay North State School, we believe discipline is about more than punishment. It is a word that reflects our belief that student behaviour is a part of the overall teaching and learning approach in our school. Our staff take responsibility for making their expectations clear, for providing supportive instruction about how to meet these expectations and strive to use behavioural incidents as opportunities to re-teach.

The development of the Mackay North State School Student Code of Conduct is an opportunity to explain our SuperBee Behaviour for Success with parents and students, and gain their support to implement a consistent approach to teaching behaviour. The language and expectations of our SuperBee Behaviour to Success can be used in any environment, including the home setting for students. Doing everything we can do to set students up for success is a shared goal of every parent and school staff member.

Any students or parents who have questions or would like to discuss the Student Code of Conduct or our SuperBee Behaviour for Success are encouraged to speak with the class teacher or make an appointment to meet with the principal.

SuperBee Behaviour for Success

Our staff are committed to delivering a high quality of education for every student, and believe all adults in the school, whether visiting or working, should meet the same four SuperBee Behaviour for Success expectations in place for students, Be Respectful, Be Responsible, Be Safe and Best Effort.

Students

Below are examples of what these SuperBee Behaviour for Success expectations look like for students across the school. In addition, each classroom will have their own set of examples to help students and visitors understand the expectations and meet the standards we hold for everyone at Mackay North State School.

Mackay North State School

School Wide Positive Behaviour Matrix

	BE RESPECTFUL	BE RESPONSIBLE	BE SAFE
ALL AREAS	<ul style="list-style-type: none"> I respect the environment I respect other's property I use polite and respectful talk I respect the rights of staff members to do their job I use my manners I clean up after myself I treat others the way I want to be treated I wear full school uniform with pride I follow staff directions/instructions I move around the school in a respectful way 	<ul style="list-style-type: none"> I use safe school talk I cooperate with others I participate consistently in all aspects of the school program I take responsibility for my learning I'm always on time and ready to learn I ask permission to leave the classroom I use the High 5 to make smart choices I use self-control – my body, my choices 	<ul style="list-style-type: none"> I walk on concrete and verandahs I am sun safe and wear a hat outside I wear appropriate footwear with tied shoelaces I stay within school grounds I use equipment appropriately I allow others to walk freely I report safety concerns I keep walkways clear I keep my hands, feet and objects to myself
EATING AREAS	<ul style="list-style-type: none"> I respect other people's lunches I ask for permission to leave the area for a drink or toilet break I follow playground duty staff directions/instructions 	<ul style="list-style-type: none"> I eat my own food I am responsible for my lunch I put all rubbish in the correct bins I clean up any mess I make I talk quietly and positively 	<ul style="list-style-type: none"> I walk on concrete I eat with clean hands I sit while I am eating I sit in my designated area
PLAYGROUND	<ul style="list-style-type: none"> I play fairly – take turns, include others, follow the rules I follow playground duty staff directions/instructions 	<ul style="list-style-type: none"> I am a problem-solver I get staff help if needed I use equipment for intended purposes I return sport equipment that I have borrowed I stop playing when the bell signals the end of break I report any problems or injuries 	<ul style="list-style-type: none"> I am sun safe I use safe smart play I walk on concrete I play non-contact sports I stay in approved play areas I look after sports equipment I keep my hands, feet and objects to myself I obey fire and lockdown procedures
TOILETS	<ul style="list-style-type: none"> I respect others' privacy I respect the facilities and keep them clean 	<ul style="list-style-type: none"> I report any problems I go to the toilet in my lunch times I return to class promptly after toilet use 	<ul style="list-style-type: none"> I use toilets appropriately I flush the toilet after use I wash my hands

PARADE COMMUNITY EVENTS	<ul style="list-style-type: none"> I keep my lips closed and listen to the speaker I stand quietly for the National Anthem I show pride in my school and myself I am a respectful member of the audience I greet visitors and am polite in conversation 	<ul style="list-style-type: none"> I cooperate with members of the community I am considerate that my actions do not interfere with others 	<ul style="list-style-type: none"> I walk to parade in two straight lines I stay with the class I sit with my legs crossed I follow the rules and policies of the community organisation
OUTSIDE OF SCHOOL HOURS	<ul style="list-style-type: none"> I use my manners I treat members of the public with respect when in school uniform 	<ul style="list-style-type: none"> I follow directions of the adult in charge I am a positive school representative I look after my belongings I assist where possible I complete my homework 	<ul style="list-style-type: none"> I follow the rules of the venue/organisation I use my own bike/scooter I wear a helmet where required I follow crossing rules
BUS STOP/DROP AND GO/BIKE RACKS	<ul style="list-style-type: none"> I follow staff directions/instructions I use my manners and speak respectfully to others I follow bus rules 	<ul style="list-style-type: none"> I ensure my bike is locked I will get on and off the bus in an orderly fashion I will sit quietly on the bus and follow all rules I will wait sensibly at the STOP DROP and GO area 	<ul style="list-style-type: none"> I sit down in the bus area I sit down/stand quietly at STOP DROP and GO I remain quiet while waiting and listen to the teachers I keep my hands, feet and objects to myself I use my own bike/scooter and walk it to the gate I only cross the road/into the parking area with an adult

Differentiated and Explicit Teaching

Mackay North State School is an inclusive school environment that provides differentiated teaching to respond to the learning needs of all students. This involves teaching expected behaviours and providing opportunities for students to practise these behaviours. Teachers reinforce expected behaviours, provide feedback and correction, and opportunities for practise.

Teachers at Mackay North State School vary what students are taught, how they are taught and how students can demonstrate what they know as part of this differentiated approach to behaviour. These decisions about differentiation are made in response to data and day-to-day monitoring that indicates the behavioural learning needs of students. This enables our teachers to purposefully plan a variety of ways to engage students; assist them to achieve the expected learning; and to demonstrate their learning.

There are three main layers to differentiation, as illustrated in the diagram below. This model is the same used for academic and pedagogical differentiation.

These three layers map directly to the tiered approach discussed earlier in the Learning and Behaviour section. For example, in our SuperBee Behaviour for Success, Tier 1 is differentiated and explicit teaching for all students using universal supports, Tier 2 is focussed teaching for identified students and Tier 3 is intensive teaching for a small number of students. Each layer provides progressively more personalised supports for students.

Every classroom in our school uses our SuperBee Behaviour for Success Matrix, illustrated above, as a basis for developing their behaviour standards. Using this matrix, the class teacher works with all students to explain exactly what each of the expectations look, sound and feel like in their classroom. The completed matrix is in our Communication Book, used as the basis of teaching expectations throughout the year and revisited regularly to address any new or emerging issues.

Focused Teaching

Approximately 15% of all students in any school or classroom may require additional support to meet behaviour expectations, even after being provided with differentiated and explicit teaching. These students may have difficulty meeting behavioural expectations in a particular period of the day or as part of a learning area/subject, and focused teaching is provided to help them achieve success.

Focused teaching involves revisiting key behavioural concepts and/or skills and using explicit and structured teaching strategies in particular aspects of a behaviour skill. Focused teaching provides students with more opportunities to practise skills and multiple opportunities to achieve the intended learning and expected behaviour.

Support staff, including teachers with specialist expertise in learning, language or development, work collaboratively with class teachers at Mackay North State School to provide focused teaching. Focused teaching is aligned to our SuperBee Behaviour for Success Expectations Matrix, and student progress is monitored by the classroom teacher/s to identify those who:

- no longer require the additional support
- require ongoing focussed teaching
- require intensive teaching.

Mackay North State School has a range of Student Support Network staff in place to help arrange and deliver focused teaching to students who need more support to meet expectations.

Intensive Teaching

Research evidence shows that even in an effective, well-functioning school there will always be approximately 5% of the student population who require intensive teaching to achieve behavioural expectations. Intensive teaching involves frequent and explicit instruction, with individuals or in small groups, to develop mastery of basic behavioural concepts, skills and knowledge.

Some students may require intensive teaching for a short period, for particular behaviour skills. Other students may require intensive teaching for a more prolonged period. Decisions about the approach will be made based on data collected from their teacher or teachers, and following consultation with the student's family.

For a small number of students who continue to display behaviours that are deemed complex and challenging, then individualised, function-based behaviour assessment and support plans and multi-agency collaboration may be provided to support the student. This approach will seek to address the acute impact of barriers to learning and participation faced by students who are negotiating a number of complex personal issues.

Students who require intensive teaching will be assigned an individual mentor at the school that will oversee the coordination of their program, communicate with stakeholders and directly consult with the student.

Legislative Delegations

Legislation

In this section of the Mackay North State School Student Code of Conduct are links to legislation which influences form and content of Queensland state school discipline procedures.

- [Anti-Discrimination Act 1991 \(Qld\)](#)
- [Child Protection Act 1999 \(Qld\)](#)
- [Commonwealth Disability Discrimination Act 1992](#)
- [Commonwealth Disability Standards for Education 2005](#)
- [Criminal Code Act 1899 \(Qld\)](#)
- [Education \(General Provisions\) Act 2006](#)
- [Education \(General Provisions\) Regulation 2017](#)
- [Human Rights Act 2019 \(Qld\)](#)
- [Information Privacy Act 2009 \(Qld\)](#)
- [Judicial Review Act 1991 \(Qld\)](#)
- [Right to Information Act 2009 \(Qld\)](#)
- [Police Powers and Responsibilities Act 2000 \(Qld\)](#)
- [Workplace Health and Safety Act 2011 \(Qld\)](#)
- [Workplace Health and Safety Regulation 2011 \(Cwth\)](#)

Delegations

Under the Education (General Provisions) Act 2006, state school principals are responsible for “controlling and regulating student discipline in the school”.

Principals are afforded a number of **non-delegable powers** to assist them to meet this obligation, including the authority to suspend, exclude or cancel the enrolment of a student at the school. These decision-making responsibilities cannot be delegated to other staff in the school, such as deputy principals.

The details of these responsibilities are outlined in the legislative instruments of delegation and instruments of authorisation provided below:

- [Education \(General Provisions\) Act 2006 Director-General’s delegations](#)
- [Education \(General Provisions\) Act 2006 Minister’s delegations](#)
- [Education \(General Provisions\) Act 2006 Director-General’s authorisations](#)
- [Education \(General Provisions\) Regulation 2006 Minister’s delegations](#)
- [Education \(General Provisions\) Regulation 2017 Director-General’s delegations](#)

Disciplinary Consequences

The disciplinary consequences model used at Mackay North State School follows the same differentiated approach used in the proactive teaching and support of student behavioural expectations.

The majority of students will be confident and capable of meeting established expectations that are clear, explicitly taught and practised. In-class corrective feedback, sanctions and rule reminders may be used by teachers to respond to low-level or minor problem behaviours.

Some students will need additional support, time and opportunities to practise expected behaviours. Approximately 15% of the student population may experience difficulty with meeting the stated expectations, and even with focussed teaching, in-class corrective feedback, sanctions and rule reminders continue to display low-level problem behaviour. A continued pattern of low-level behaviour can interfere with teaching and learning for the whole class, and a decision may be needed by the class teacher to refer the student to the school administration team immediately for determination of a disciplinary consequence.

For a small number of students, approximately 2-5%, a high level of differentiated support or intensive teaching is required to enable them to meet the behavioural expectations. This may be needed throughout the school year on a continuous basis. The determination of the need will be made by the principal in consultation with staff and other relevant stakeholders. On occasion the behaviour of a student may be so serious, such as causing harm to other students or to staff, that the principal may determine that an out of school suspension or exclusion is necessary as a consequence for the student's behaviour. Usually this course of action is only taken when the behaviour is either so serious as to warrant immediate removal of the student for the safety of others, and no other alternative discipline strategy is considered sufficient to deal with the problem behaviour.

The differentiated responses to problem behaviour can be organised into three tiers, with increasing intensity of support and consequences to address behaviour that endangers others or causes major, ongoing interference with class or school operations.

Differentiated Disciplinary Responses

Class teacher provides in-class or in-school disciplinary responses to low-level or minor problem behaviour. This may include:

- Pre-correction (e.g. "Remember, walk quietly to your seat")
- Non-verbal and visual cues (e.g. posters, hand gestures)
- Whole class practising of routines
- Ratio of 5 positive to 1 negative commentary or feedback to class
- Corrective feedback (e.g. "Hand up when you want to ask a question")
- Rule reminders (e.g. "When the bell goes, stay seated until I dismiss you")
- Explicit behavioural instructions (e.g. "Pick up your pencil")
- Proximity control
- Tactical ignoring of inappropriate behaviour (not student)
- Revised seating plan and relocation of student/s
- Individual positive reinforcement for appropriate behaviour
- Classwide incentives

- Reminders of incentives or class goals
- Redirection
- Low voice and tone for individual instructions
- Give 30 second 'take-up' time for student/s to process instruction/s
- Reduce verbal language
- Break down tasks into smaller chunks
- Provide positive choice of task order (e.g. "Which one do you want to start with?")
- Prompt student to take a break or time away in class
- Model appropriate language, problem solving and verbalise thinking process (e.g. "I'm not sure what is the next step, who can help me?")
- Provide demonstration of expected behaviour
- Peer consequence (e.g. corrective feedback to influential peer demonstrating same problem behaviour)
- Private discussion with student about expected behaviour
- Reprimand for inappropriate behaviour
- Warning of more serious consequences (e.g. removal from classroom)
- Detention

Focussed Disciplinary Responses

Class teacher is supported by other school-based staff to address in-class problem behaviour. This may include:

- Functional Behaviour Assessment
- Individual student behaviour support strategies (e.g. Student behaviour plan)
- Targeted skills teaching in small group
- Temporary removal from activity
- Buddy room
- Reflection sheet
- Yellow Warning Card
- Focussed Reflection Time (Reflection Room-Orange Card)
- Behavioural contract
- Counselling and guidance support
- Self-monitoring plan
- Supervised Playground Timetable
- Check in Check Out strategy
- Teacher conferencing, coaching and debriefing
- Referral to Student Support Services (Social Justice) for team-based problem solving
- Stakeholder meeting with parents and external agencies

Intensive Disciplinary Responses

School leadership team work in consultation with Student Support Services (Social Justice) to address persistent or ongoing serious problem behaviour. This may include:

- Functional Behaviour Assessment based individual support plan
- Complex case management and review
- Stakeholder meeting with parents and external agencies including regional specialists
- Temporary removal of student property (e.g. mobile phone)

- Short term suspension (up to 10 school days)
- Long term suspension (up to 20 school days)
- Charge related suspension (student has been charged with a serious criminal offence is suspended from school until the charge has been dealt with by the relevant justice authorities)
- Suspension pending exclusion (student is suspended from school pending a decision by the Director-General or delegate (principal) about their exclusion from school)
- Exclusion (student is excluded from a particular state school site, a group of state schools or all state schools in Queensland for a defined period of time or permanently)

School Disciplinary Absences

A School Disciplinary Absence (SDA) is an enforced period of absence from attending a Queensland state school, applied by the Principal as a consequence to address poor student behaviour. There are four types of SDA:

- Short suspension (1 to 10 school days)
- Long suspension (11 to 20 school days)
- Charge-related suspension
- Exclusion (period of not more than one year or permanently).

At Mackay North State School, the use of any SDA is considered a very serious decision. It is typically only used by the Principal when other options have been exhausted or the student's behaviour is so dangerous that continued attendance at the school is considered a risk to the safety or wellbeing of the school community.

Parents and students may appeal a long suspension, charge-related suspension or exclusion decision. A review will be conducted by the Director-General or their delegate, and a decision made within 40 school days to confirm, amend/vary or set aside the original SDA decision by the Principal.

The appeal process is a thorough review of all documentation associated with the SDA decision and provides an opportunity for both the school and the family to present their case in the matter. Time is afforded for collection, dissemination and response to the materials by both the school and the family. It is important that the purpose of the appeal is understood so that expectations are clear, and appropriate supports are in place to ensure students can continue to access their education while completing their SDA.

Re-entry following suspension

Students who are suspended from Mackay North State School may be invited to attend a re-entry meeting on the day of their scheduled return to school. The main purpose of this meeting is to welcome the student, with their parent/s, back to the school. It is **not a time** to review the student's behaviour or the decision to suspend, the student has already received a punishment through their disciplinary absence from school. The aim of the re-entry meeting is for school staff to set the student up for future success and strengthen home-school communication.

It is not mandatory for the student or their parents to attend a re-entry meeting. It may be offered as a support for the student to assist in their successful re-engagement in school following suspension.

Arrangements

The invitation to attend the re-entry meeting will be communicated via telephone and in writing, usually via email. Re-entry meetings are short, taking less than 10 minutes, and kept small with only the Principal or their delegate attending with the student and their parent/s.

A record of the meeting is saved in OneSchool, under the Contact tab, including any notes or discussions occurring during the meeting.

Structure

The structure of the re-meeting should follow a set agenda similar to that described below. If additional items are raised for discussion, a separate arrangement should be made to meet with the parent/s at a later date and time. This meeting should be narrowly focussed on making the student and their family feel welcome back into the school community.

Possible agenda:

- Welcome back to school
- Check in on student wellbeing
- Discuss any recent changes to school routine or staffing
- Offer information about supports available (e.g. guidance officer)
- Set a date for follow-up
- Thank student and parent/s for attending
- Walk with student to classroom

Reasonable adjustments

In planning the re-entry meeting, school staff will consider reasonable adjustments needed to support the attendance and engagement of the student. This includes selecting an appropriate and accessible meeting space, organising translation or interpretation services or supports (e.g. AUSLAN), provision of written and/or pictorial information and other relevant accommodations.

The inclusion of support staff, such as guidance officers or Community Education Counsellors, may also offer important advice to ensure a successful outcome to the re-entry meeting.

School Policies

Mackay North State School has tailored school discipline policies designed to ensure students, staff and visitors work cooperatively to create and maintain a supportive and safe learning environment. Please ensure that you familiarise yourself with the responsibilities for students, staff and visitors outlined in the following policies:

- Temporary removal of student property
- Use of mobile phones and other devices by students
- Preventing and responding to bullying
- Appropriate use of social media

Temporary Removal of Student Property

The removal of any property in a student's possession may be necessary to promote the caring, safe and supportive learning environment of the school, to maintain and foster mutual respect between all state school staff and students. The **Temporary removal of student property by school staff procedure** outlines the processes, conditions and responsibilities for state school principals and school staff when temporarily removing student property.

In determining what constitutes a reasonable time to retain student property, the principal or state school staff will consider:

- the condition, nature or value of the property
- the circumstances in which the property was removed
- the safety of the student from whom the property was removed, other students or staff members
- good management, administration and control of the school.

The Principal or state school staff determine when the temporarily removed student property can be returned, unless the property has been handed to the Queensland Police Service.

The following items are explicitly prohibited at Mackay North State School and will be removed if found in a student's possession:

- illegal items or weapons (e.g. guns, knives*, throwing stars, brass knuckles, chains)
- imitation guns or weapons
- potentially dangerous items (e.g. blades, rope)
- drugs** (including tobacco)
- alcohol
- aerosol deodorants or cans (including spray paint)
- explosives (e.g. fireworks, flares, sparklers)
- flammable solids or liquids (e.g. fire starters, mothballs, lighters)
- poisons (e.g. weed killer, insecticides)
- inappropriate or offensive material (e.g. racist literature, pornography, extremist propaganda).

* No knives of any type are allowed at school, including flick knives, ballistic knives, sheath knives, push daggers, trench knives, butterfly knives, star knives, butter

knives, fruit knives or craft knives, or any item that can be used as a weapon, for example a chisel. Knives needed for school activities will be provided by the school, and the use of them will be supervised by school staff. In circumstances where students are required to have their own knives or sharp tools for particular subjects or vocational courses, the school will provide information about the procedures for carrying and storing these items at school.

** The administration of medications to students by school staff is only considered when a prescribing health practitioner has determined that it is necessary or when there is no other alternative in relation to the treatment of a specific health need. Schools require medical authorisation to administer any medication to students **(including over-the-counter medications such as paracetamol or alternative medicines)**.

Responsibilities

State school staff at Mackay North State School

- do not require the student's consent to search school property such as lockers, desks or laptops that are supplied to the student through the school;
- may seize a student's bag where there is suspicion that the student has a dangerous item (for example, a knife) in their school bag, prior to seeking consent to search from a parent or calling the police;
- consent from the student or parent is required to examine or otherwise deal with the temporarily removed student property. For example, staff who temporarily remove a mobile phone from a student are not authorised to unlock the phone or to read, copy or delete messages stored on the phone;
- there may, however, be emergency circumstances where it is necessary to search a student's property without the student's consent or the consent of the student's parents (e.g. to access an EpiPen for an anaphylactic emergency);
- consent from the student or parent is required to search the person of a student (e.g. pockets or shoes). If consent is not provided and a search is considered necessary, the police and the student's parents should be called to make such a determination.

Parents of students at Mackay North State School

- ensure your children do not bring property onto school grounds or other settings used by the school (e.g. camp, sporting venues) that:
 - is prohibited according to the Mackay North State School Student Code of Conduct
 - is illegal
 - puts the safety or wellbeing of others at risk
 - does not preserve a caring, safe, supportive or productive learning environment
 - does not maintain and foster mutual respect;
- collect temporarily removed student property as soon as possible after they have been notified by the Principal or state school staff that the property is available for collection.

Students of Mackay North State School

- do not bring property onto school grounds or other settings used by the school (e.g. camp, sporting venues) that:
 - is prohibited according to the Mackay North State School Code of Conduct
 - is illegal
 - puts the safety or wellbeing of others at risk

- does not preserve a caring, safe, supportive or productive learning environment
- does not maintain and foster mutual respect;
- collect their property as soon as possible when advised by the Principal or state school staff it is available for collection.

Use of Mobile Phones and Other Devices by Students

Digital literacy refers to the skills needed to live, learn and work in a society where communication and access to information is dominated by digital technologies like mobile phones. However, the benefits brought about through these diverse technologies can be easily overshadowed by deliberate misuse which harms others or disrupts learning.

In consultation with the broader school community, Mackay North State School has determined that explicit teaching of responsible use of technology is a critical component of digital literacy. The knowledge and confidence to navigate and use these technologies safely while developing digital literacy is a responsibility shared between parents, school staff and students.

It is also agreed that time and space should be provided at school where technology is not permitted, and students are encouraged to engage in other social learning and development activities.

This policy reflects the importance the school places on students displaying courtesy, consideration and respect for others whenever they are using technology devices.

Bringing personal technology devices to school is not encouraged by the school because of the potential for theft, misuse and disruption to the good management of the school which is associated with them. Should a student need to bring a personal mobile device to school, it must be turned off and checked in at the school office as soon as the child arrives at school and may be collected at the end of the school day.

Responsibilities

The responsibilities for students using technology devices at school or during school activities, are outlined below.

It is **acceptable** for students at Mackay North State School to:

- use school owned devices such as computers, laptops, iPads or cameras for
 - assigned class work and assignments set by teachers
 - developing appropriate literacy, communication and information skills
 - authoring text, artwork, audio and visual material
 - conducting general research for school activities and projects
 - communicating or collaborating with other students or teachers in relation to school work
 - accessing online references such as dictionaries, encyclopaedias, etc.
 - researching and learning through the department's eLearning environment

It is **unacceptable** for students at Mackay North State School to:

- use any device in an unlawful manner
- download, distribute or publish offensive messages or pictures
- use obscene, inflammatory, racist, discriminatory or derogatory language
- use language and/or threats of violence that may amount to bullying and/or harassment, or even stalking
- insult, harass or attack others or use obscene or abusive language
- deliberately waste printing and internet resources
- damage computers, printers or network equipment
- commit plagiarism or violate copyright laws
- ignore teacher directions for the use of online email chat
- send chain letters or spam email (junk mail)
- knowingly download viruses or any other programs capable of breaching the department's network security
- use in-device cameras anywhere a normal camera would be considered inappropriate, such as in change rooms or toilets
- invade someone's privacy by recording personal conversations or daily activities and/or the further distribution (e.g. forwarding, texting, uploading, Bluetooth use etc.) of such material

At all times students, while using ICT facilities and devices supplied by the school, will be required to act in line with the requirements of the Mackay North State School Student Code of Conduct. In addition students and their parents should:

- understand the responsibility and behaviour requirements (as outlined by the school) that come with accessing the department's ICT network facilities
- ensure they have the skills to report and discontinue access to harmful information if presented via the internet or email
- be aware that:
 - access to ICT facilities and devices provides valuable learning experiences for students and supports the school's teaching and learning programs
 - the school is not responsible for safeguarding information stored by students on departmentally-owned student computers or mobile devices
 - schools may remotely access departmentally-owned student computers or mobile devices for management purposes
 - students who use a school's ICT facilities and devices in a manner that is not appropriate may be subject to disciplinary action by the school, which could include restricting network access
 - despite internal departmental controls to manage content on the internet, illegal, dangerous or offensive information may be accessed or accidentally displayed
 - teachers will always exercise their duty of care, but avoiding or reducing access to harmful information also requires responsible use by the student.

Preventing and Responding to Bullying

Our staff know student learning is optimised when they feel connected to others and experience safe and trusting relationships. Students who feel secure are more likely to be active participants in their learning and to achieve better physical, emotional, social and educational outcomes. Teachers who feel valued and supported are more likely to engage positively with students and build stronger connections within the school community. Parents who are positively engaged with their child's education leads to improved student self-esteem, attendance and behaviour at school. Enhancing the wellbeing of students and their educators delivers overall long-term social, health and economic benefits to the Australian community.

A priority for the Student Leadership Forum is contributing to the implementation of strategies that enhance wellbeing, promote safety and counter violence, bullying and abuse in all online and physical spaces. The engagement of young people in the design of technology information and digital education programs for parents was a key recommendation from the [Queensland Anti-Cyberbullying Taskforce report](#) in 2018, and at Exemplar State College we believe students should be at the forefront of advising staff, parents and the broader community about emerging issues and practical solutions suitable to different contexts.

Bullying

The agreed national definition for Australian schools describes bullying as

- ongoing and deliberate misuse of power in relationships through repeated verbal, physical and/or social behaviour that intends to cause physical, social and/or psychological harm;
- involving an individual or a group misusing their power, or perceived power, over one or more persons who feel unable to stop it from happening;
- happening in person or online, via various digital platforms and devices and it can be obvious (overt) or hidden (covert). Bullying behaviour is repeated, or has the potential to be repeated, over time (for example, through sharing of digital records);
- having immediate, medium and long-term effects on those involved, including bystanders. Single incidents and conflict or fights between equals, whether in person or online, are not defined as bullying.

Behaviours that do not constitute bullying include:

- mutual arguments and disagreements (where there is no power imbalance)
- not liking someone or a single act of social rejection
- one-off acts of meanness or spite
- isolated incidents of aggression, intimidation or violence.

However, these conflicts are still considered serious and need to be addressed and resolved. At Mackay North State School our staff will work to quickly respond to any matters raised of this nature in collaboration with students and parents.

The following flowchart explains the actions Mackay North State School teachers will take when they receive a report about student bullying, including bullying which may have occurred online or outside of the school setting. Please note that the indicative timeframes will vary depending on the professional judgment of teachers who receive the bullying complaint and their assessment of immediate risk to student/s.

Mackay North State School - Bullying response flowchart for teachers

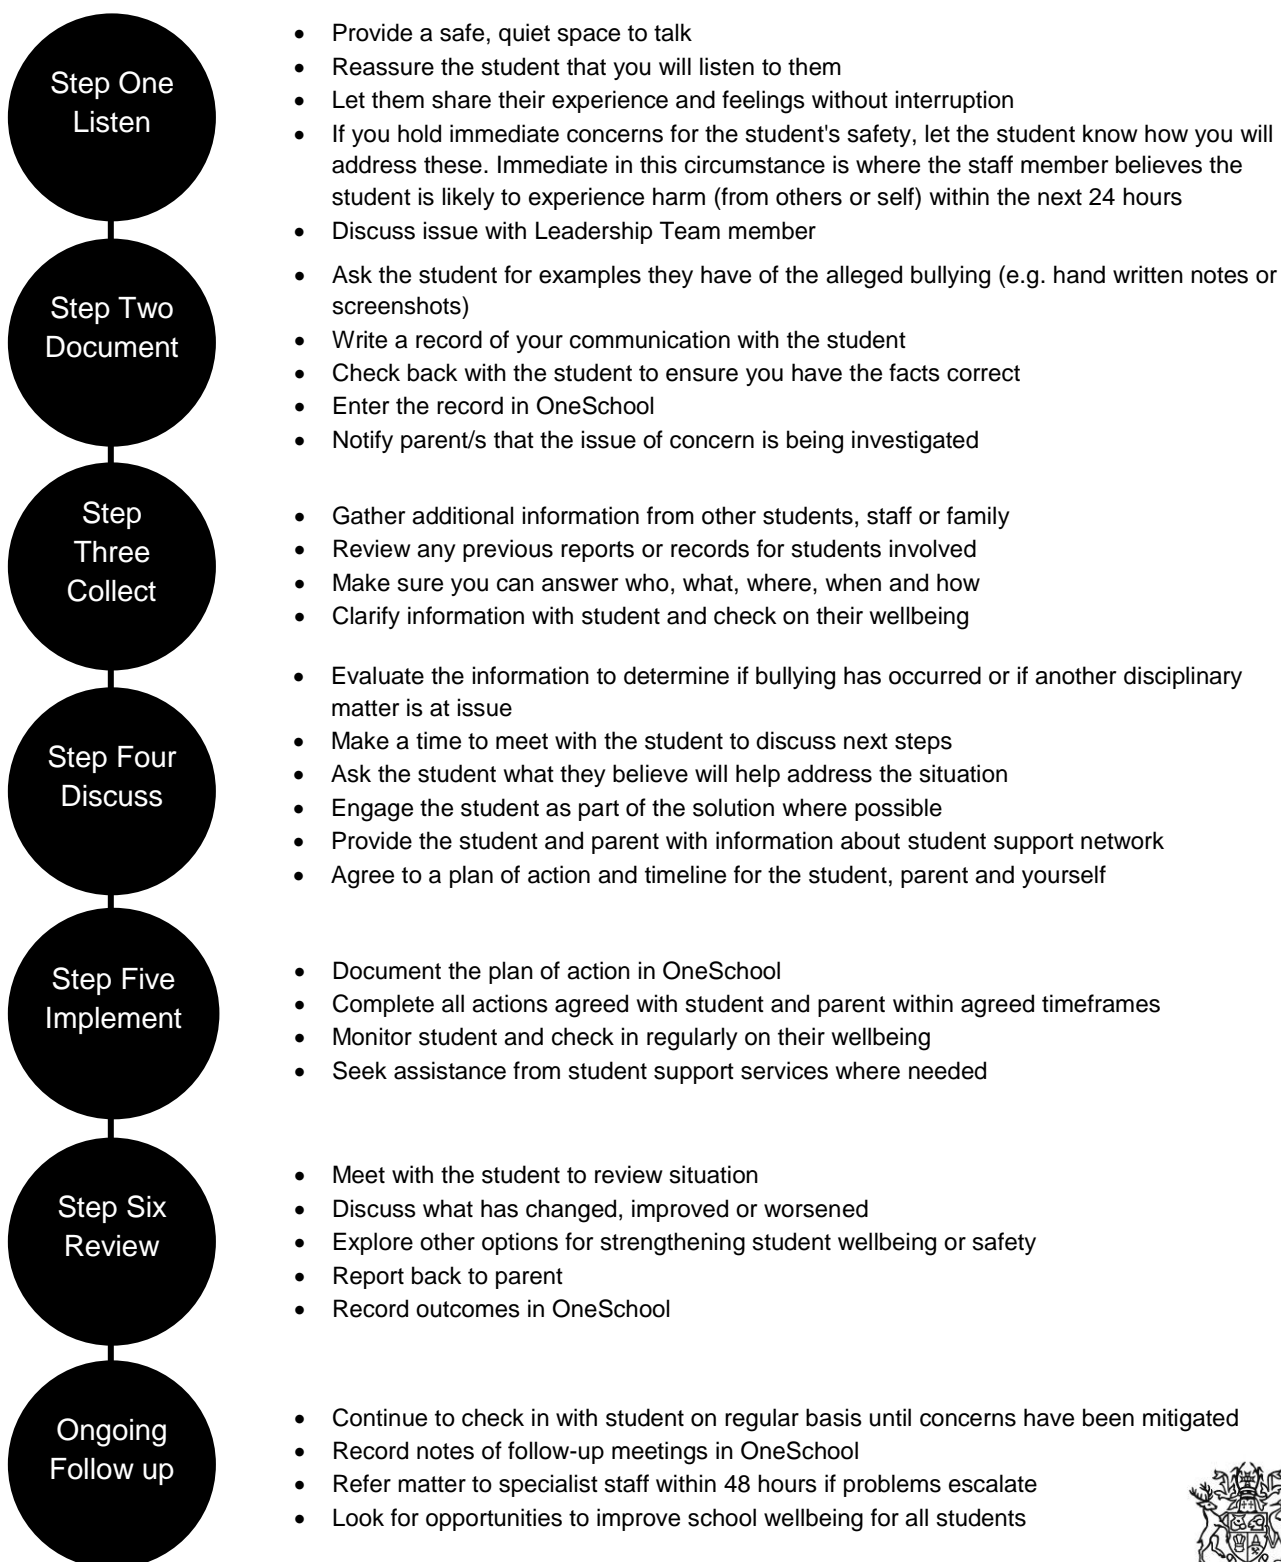

Please note these timelines may be adjusted depending on the unique circumstances and risk associated with each situation. This is at the professional judgment of the staff involved. Timeframes should be clearly discussed and agreed with student and family.

Deputy Principal

Principal

Cyberbullying

Cyberbullying is treated at Mackay North State School with the same level of seriousness as in-person bullying. The major difference with cyberbullying however, is that unlike in-person bullying, cyberbullying follows students into their community, their homes and their bedrooms, giving them no opportunity to escape the harassment or abuse during the evening, weekends or holidays.

In the first instance, students or parents who wish to make a report about cyberbullying should approach the regular class teacher.

It is important for students, parents and staff to know that state school principals have the authority to take disciplinary action to address student behaviours that occur outside of school hours or school grounds. This includes cyberbullying. Parents and students who have concerns about cyberbullying incidents occurring during school holidays should immediately seek assistance through the [Office of the e-Safety Commissioner](#) or the Queensland Police Service.

Students enrolled at Mackay North State School may face in-school disciplinary action, such as detention or removing of privileges, or more serious consequences such as suspension or exclusion from school for engaging in behaviour that adversely affects, or is likely to adversely affect, other students or the good order and management of the school. This includes behaviour such as cyberbullying which occurs outside of school hours or settings, for example on the weekend or during school holidays. It also applies to inappropriate online behaviour of enrolled students that is directed towards other community members or students from other school sites.

Parents or other stakeholders who engage in inappropriate online behaviour towards students, staff or other parents may be referred to the Office of the e-Safety Commissioner and/or the Queensland Police Service. State school staff will be referred for investigation to the Integrity and Employee Relations team in the Department of Education. Any questions or concerns about the school process for managing or responding to cyberbullying should be directed to the Principal.

Mackay North State School - Cyberbullying response flowchart for school staff

How to manage online incidents that impact your school

Student protection

If at any point the principal forms a reasonable suspicion that a student has been harmed or is at risk of harm, they have a responsibility to respond in accordance with the [Student protection procedure](#).

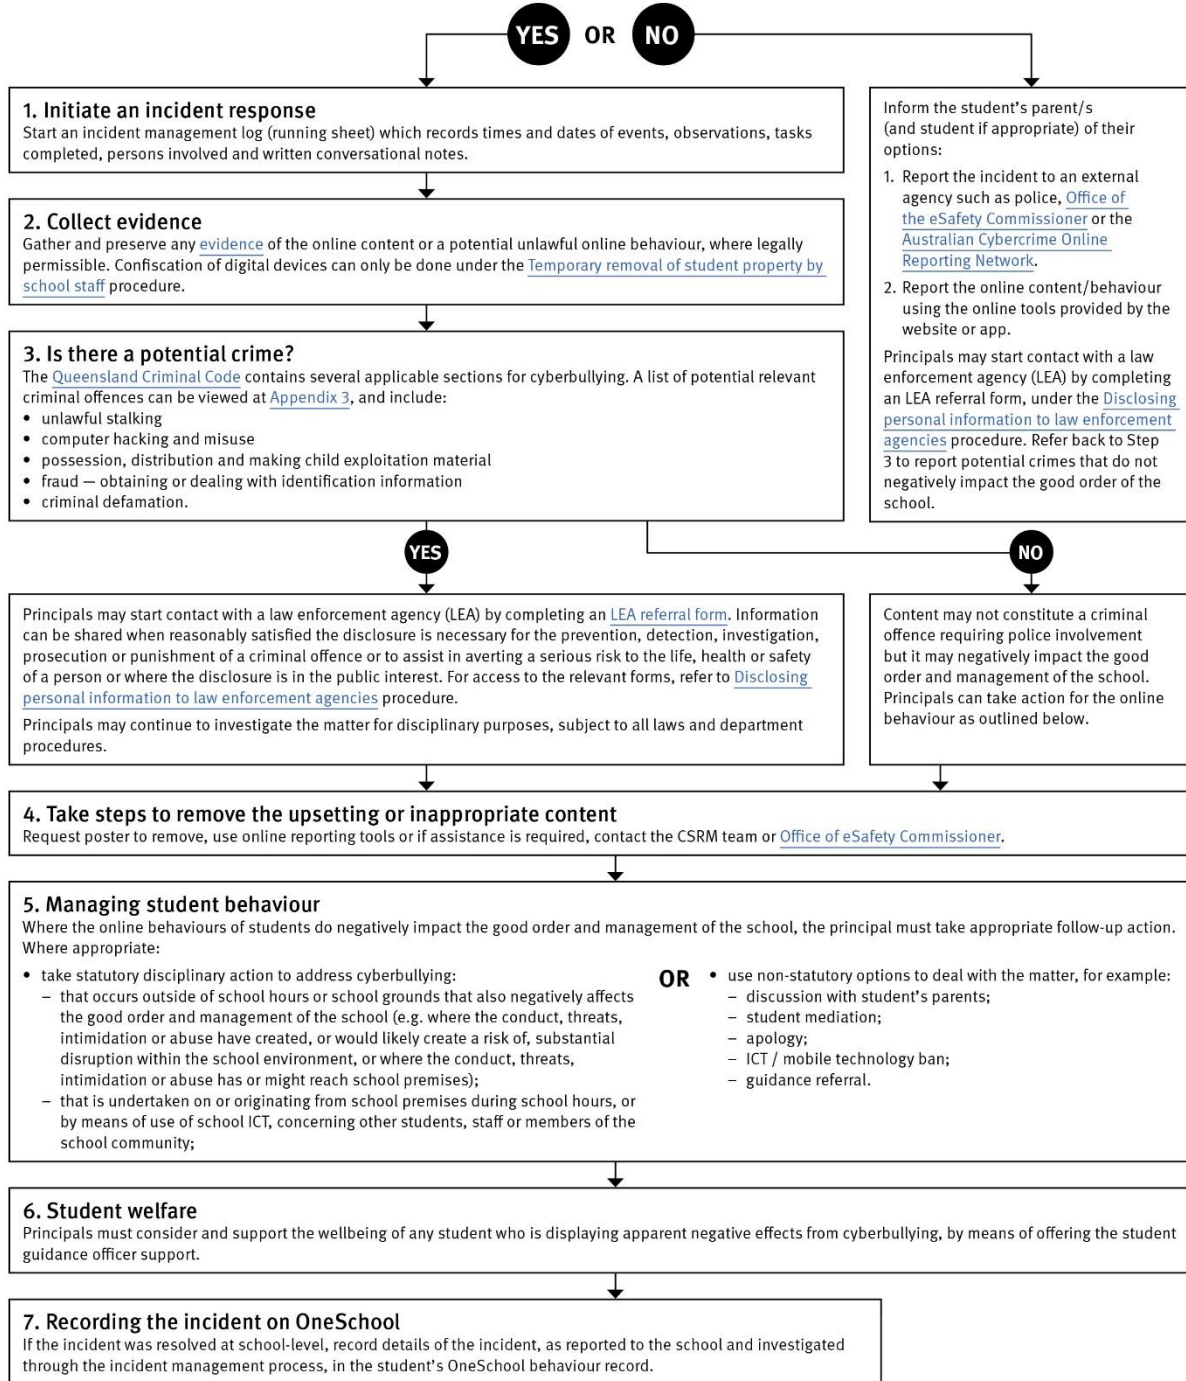

Explicit images

If the investigation involves naked or explicit images of children, staff should not save, copy, forward or otherwise deal with the content, as per the [Temporary removal of student property by school staff procedure](#). This includes onto OneSchool records. Refer to the investigative process outlined in 'Responding to incidents involving naked or explicit images of children' from the [Online Incident management guidelines](#).

Report

Refer to the [Online incident management guidelines](#) for more details, or if assistance is required, contact the Cybersafety and Reputation Management (CSRM) team on 3034 5035 or Cybersafety.ReputationManagement@qed.qld.gov.au.

Does the online behaviour/incident **negatively impact the good order and management** of the school?

Cybersafety and Reputation Management (CRM)

The Department of Education employs a dedicated team of experts to assist in maintaining the integrity of the department's reputation with regards to cybersafety and reputation management issues, effectively leading the development and implementation of departmental cybersafety processes.

This team provides **direct support for schools** to respond to concerns of inappropriate online behaviour and misuse of information and communication technology.

The team provides a [guide for parents](#) with important information about cybersafety and cyberbullying, and suggestions about what you can do if your child is a target or responsible for inappropriate online behaviour.

The team has also developed a [Cyberbullying and reputation management](#) (Department employees only) resource to assist principals in incident management.

For more information about cybersafety sessions at your school, or for assistance with issues relating to online behaviour, contact the [team](#) (Department employees only).

Student Intervention and Support Services

Mackay North State School recognises the need to provide intervention and support to all students involved in incidents of bullying, including cyberbullying.

Students who have been subject or witness to bullying have access to a range of internal support staff. Students are, however, also encouraged to approach any staff member with whom they feel comfortable sharing their concerns, regardless of their role in the school. All staff at Mackay North State School are familiar with the response expectations to reports of bullying, and will act quickly to ensure students' concerns are addressed. Depending on the nature of the reported bullying incident, a formal plan of action may be developed and documented to support the implementation of strategies to assist the student.

Students who engage in bullying behaviours towards others will also be provided with support to assist them to use more socially acceptable and appropriate behaviours in their interactions. This includes counselling, social development programs, referral to mental health services or involvement in a restorative justice strategy. School disciplinary measures may also be used to reinforce the seriousness with which the community takes all incidents of bullying. These measures may include internal school suspension, withdrawal from social events or celebrations or more severe punishments such as suspension or exclusion from school.

Appropriate Use of Social Media

The internet, mobile phones and social media provide wonderful opportunities for students to network and socialise online. While these technologies provide positive platforms for sharing ideas, they also have the potential to cause pain and suffering to individuals, groups or even whole communities.

It's important to remember that sometimes negative comments posted about the school community have a greater impact than expected. This guide offers some information about how to use social media in relation to comments or posts about the school community. Reputations of students, teachers, schools, principals and even parents can be permanently damaged — and in some cases, serious instances of inappropriate online behaviour are dealt with by police and the court system.

Being aware of a few simple strategies can help keep the use of social media positive and constructive:

- Before you post something online, ask yourself if the community or individual really need to know. Is it relevant, positive and helpful?
- Remember that what you post online is a direct reflection of who you are. People will potentially form lasting opinions of you based on what you post online.
- Be a good role model. If things get heated online consider logging out and taking a few moments to relax and think. Hasty, emotive responses could inflame situations unnecessarily.
- Be mindful when commenting, try to keep general and avoid posting anything that could identify individuals.
- A few years ago parents may have discussed concerns or issues with their friends at the school gate. Today with the use of social media, online discussions between you and your close friends can very quickly be shared with a much wider audience, potentially far larger than intended.
- Taking a few moments to think about the content you are about to post could save upset, embarrassment, and possible legal action.
- As a parent you have a role in supervising and regulating your child's online activities at home and its impact on the reputation and privacy of others. Parents are their child's first teachers — so they will learn online behaviours from you.

Is it appropriate to comment or post about schools, staff or students?

Parental and community feedback is important for schools and the department. If you have a compliment, complaint or enquiry about an issue at school, the best approach is to speak directly to the school about the matter, rather than discussing it in a public forum.

While many schools use social media to update parents of school notices, the department prefers that parents contact schools directly with a compliment, complaint or enquiry due to privacy considerations. Imagine if your doctor, accountant or banking institution tried to contact you to discuss important matters via Facebook.

If you have raised an issue with a school or know that another person has, consider refraining from discussing those details on social media, particularly the names of anyone involved.

Keep comments calm and polite, just as you would over the telephone or by email. If you encounter negative or derogatory content online which involves the school, hinders a child's learning and/or affects the school community at large, contact the school principal.

Possible civil or criminal ramifications of online commentary

A serious instance of inappropriate online behaviour may constitute a criminal offence and become a police matter. For example, online content may substantiate the offence of 'using a carriage service to menace, harass or cause offence' (Criminal Code Act 1995 (Cth) s. 474.17). School staff may contact their union or obtain personal legal advice if they feel that online content seriously impacts their reputation. Defamatory online content may give rise to litigation under the Defamation Act 2005 (Qld).

What about other people's privacy?

If you upload photos of your children, be mindful of who might be in the background. You might be happy to share your child's successes with your friends and family via social media, but some parents are not. If you are tagging or naming students, consider that other parents may not want their child's name attached to images online.

What if I encounter problem content?

Taking the following steps may help resolve the issue in a constructive way:

- refrain from responding
- take a screen capture or print a copy of the concerning online content
- if you consider problem content to be explicit, pornographic or exploitative of minors, you should keep a record of the URL of the page containing that content but NOT print or share it. The URL can be provided to the school principal, or police, as needed for escalation of serious concerns
- block the offending user
- report the content to the social media provider.

Restrictive Practices

School staff at Mackay North State School need to respond to student behaviour that presents a risk of physical harm to the student themselves or others. It is anticipated that most instances of risky behaviour can be de-escalated and resolved quickly. On some rarer occasions, a student's behaviour may continue to escalate and staff need to engage immediately with positive and proactive strategies aimed at supporting the student to manage their emotional arousal and behaviour.

In some very rare situations, where there is immediate risk of physical harm to the student or other people, and when all other alternative strategies have failed to reduce the risk, it may be necessary for staff to use restrictive practices.

The use of restrictive practices will always be as a last resort, when there is no other available option for reducing immediate risk to the student, staff or other people. Restrictive practices are not used for punishment or as a disciplinary measure.

The department's **Restrictive practices procedure** is written with consideration for the protection of everyone's human rights, health, safety and welfare. There are six fundamental principles:

1. Regard to the human rights of those students
2. Safeguards students, staff and others from harm
3. Ensures transparency and accountability
4. Places importance on communication and consultation with parents and carers
5. Maximises the opportunity for positive outcomes, and
6. Aims to reduce or eliminate the use of restrictive practices.

Very rarely restrictive practices will be planned and staff will employ, when necessary, pre-arranged strategies and methods (of physical restraint/ mechanical restraint/ clinical holding) which are based upon behaviour risk assessment or clinical health need and are recorded in advance. The use of planned strategies will only be where there is foreseeable immediate risk consistent with the **Restrictive practices procedure**.

Seclusion will not be used as a planned response and will only be used in serious circumstances for managing an unforeseeable situation in an emergency. It will be used for the shortest time possible and in a safe area that presents no additional foreseeable risk to the student. In such emergencies, a staff member will observe the student at all times and seclusion will cease as soon as possible.

Following the use of any restrictive practice, a focused review will help staff to understand how they responded to the risk in any incident that involved the use of a restrictive practice. Staff will consider whether there are other options for managing a similar situation in the future. This strategy works well for reducing the use of restrictive practices.

All incidents of restrictive practices will be recorded and reported in line with departmental procedures.

Critical Incidents

It is important that all school staff have a consistent understanding of how to respond in emergencies involving student behaviour that seriously endangers the student or others. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe.

A *critical incident* is defined as an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action (e.g. in the community, on the road). The aim in these situations is to bring the behaviour of the student under rapid and safe control. It is not a time to try and to punish or discipline the student; it is a crisis management period only.

Staff should follow the documented plan for any student involved in regular critical incidents, which should be saved and available for staff to review in OneSchool.

For unexpected critical incidents, staff should use basic defusing techniques:

1. **Avoid escalating the problem behaviour:** Avoid shouting, cornering the student, moving into the student's space, touching or grabbing the student, sudden responses, sarcasm, becoming defensive, communicating anger and frustration through body language.
2. **Maintain calmness, respect and detachment:** Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally.
3. **Approach the student in a non-threatening manner:** Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates.
4. **Follow through:** If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students' attention towards their usual work/activity. If the student continues with the problem behaviour, then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour.
5. **Debrief:** At an appropriate time when there is low risk of re-escalation, help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations.

Conclusion

Mackay North State School staff are committed to ensuring every student is supported to feel safe, welcome and valued in our school. There may, however, be occasions where parents need to raise a concern or make a complaint about an issue you feel is adversely affecting their child's education.

All Queensland state schools are committed to ensuring that all complaints - whether they relate to a school staff member or a school's operations - are dealt with in a fair and equitable manner. As a parent or carer, you can express dissatisfaction with the service or action of the Department of Education or its staff, including decisions made or actions taken in a school and/or by the local regional office.

As a complainant, it is your responsibility to:

- give us a clear idea of the issue or concern and your desired solution
- provide all the relevant information when making the complaint
- understand that addressing a complaint can take time
- cooperate respectfully and understand that unreasonable, abusive, or disrespectful conduct will not be tolerated
- let us know if something changes, including if help is no longer needed.

The Department of Education may not proceed with your complaint if your conduct is unreasonable.

In most instances, staff members are told of complaints made about them and offered the right of reply. A complainant also has the right to have a support person throughout the process.

The following three-step approach assists parents and school staff in reaching an outcome that is in the best interests of the student:

1. **Early resolution:** discuss your complaint with the school
The best place to raise any concerns is at the point where the problem or issue arose. You can make an appointment at the school to discuss your complaint with your child's teacher or the principal. You are also welcome to lodge your complaint in writing or over the phone. You can also make a complaint through [QGov](#).

Complaints may be lodged by telephone, writing or in electronic format. Email addresses can be accessed through the [schools directory](#).

2. **Internal review:** [contact the local Regional Office](#)
If, after taking the early resolution step, you are dissatisfied with the outcome of your complaint or how the complaint was handled, you can ask the local [regional office](#) to conduct a review. You need to submit a [Request for internal review form](#) within 28 days of receiving the complaint outcome.
3. **External review:** contact a review authority
if you are dissatisfied after the internal review, you may wish to contact a review authority, such as the Queensland Ombudsman, and request an independent, external review. More information about external review options is available at www.ombudsman.qld.gov.au.

Some matters need to be handled in a different way to school matters and will be referred to other areas in the department. These include:

- issues about harm, or risk of harm, to a student attending a state school, which must be managed in accordance with the [Student protection procedure](#).
- complaints about corrupt conduct, public interest disclosures; or certain decisions made under legislation, which will be dealt with as outlined in the [Excluded complaints factsheet](#).
